

CMWG

What we spend our time on.

January 22, 2008

MKS

Business Drivers

- Productivity
 - Efficiencies in IT
 - Better Communication
- Metrics
 - What, When, Who and When
- Standardizations
 - Processes
 - Tools
- Portfolio Management
 - Visibility

What's important to me

MKS

Areas of Discussions

- Process Management Problems
 - Teams have disparate processes that are uncoordinated
 - Teams do not know the status of each other's work
- Disparate Tools Problems
 - Teams use different tools that are not integrated
 - Teams use tools that are manual and have no process
 - Word, Excel, stand alone documents and printouts
 - Limited or no document version control
- Distributed Organizations Problems
 - Contractors and Government (customer and sub-contractor) are in separate locations and disparate networks
 - Dev, Test, Prod environments are in separate physical and network disconnected locations

Specific Customer Issues

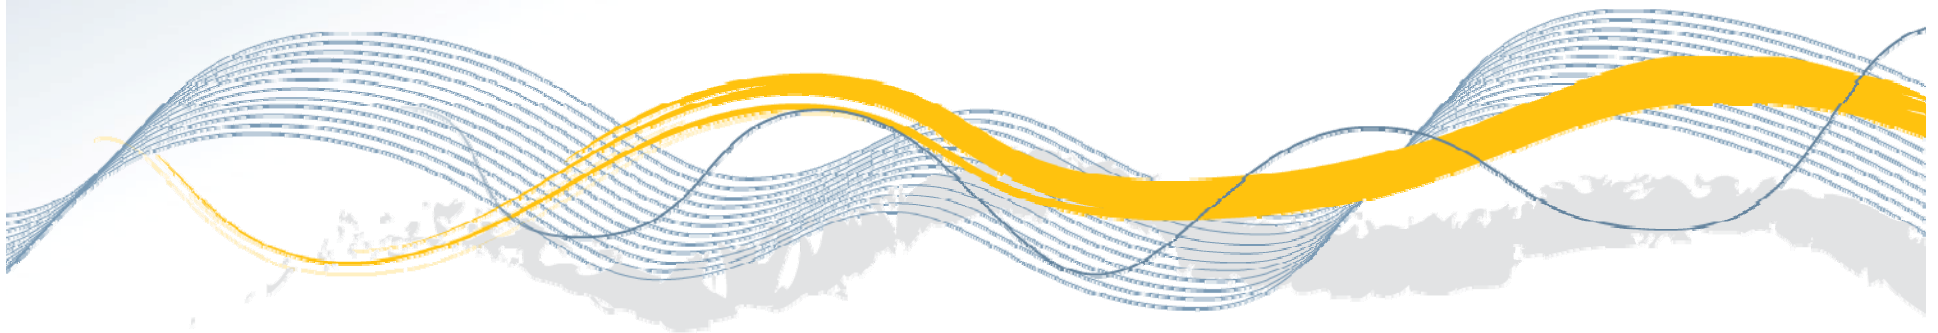

- DoD
 - Separate processes and tools for helpdesk and developers
- IC
 - Separate databases for the requirements team, the test team and the development team
- Public Corporation
 - Everything is working fine because we are small
 - Growth is coming and we need help
- Yours
 - Basis for future CMWG guests and presentations

**Let's talk about
what this body really needs help with.**
