Configuration Management Work Group
Washington DC Metro Area

Dear CMWG,

I want to express my sincere thanks to the CMWG for having me as a guest speaker and especially, I'd like to thank Mr. Jeff Parnes for inviting me. You have a warm, welcoming group and I felt quite "at home" presenting to the gathering. My discussion was about the Implementation of MKS on the ADS-B Project. The group was quite attentive and asked great questions.

I look forward to being a regular attendee at your meetings.

Thank you again.

Sincerely,

Phyllis High Jones,
Configuration Manager
